

LNG Application Guide

Quality flow control products paired with expert advice.

- CYLINDER EQUIPMENT
- FUELING EQUIPMENT
- RELIEF VALVES
- GLOBE VALVES
- GATE VALVES
- CHECK VALVES
- REGULATORS

You do not thrive for more than 100 years because you are lucky.

It takes quality products, constant innovation, and above all, a dedication to the customer.

From a pioneer in the development of liquid natural gas cylinders to a global leader delivering a comprehensive line of LNG flow control and safety products, RegO has always put our customers' interests first.

Quality matters. LNG applications have no room for leaks. That is why we design, manufacture, and 100% test our products, and can offer the industry's longest warranties. RegO products offer performance you can rely on.

Innovative products, processes, and people. We invest in technology and training to deliver LNG and cryogenic flow control products designed to reduce your maintenance and replacement costs, and ensure an efficient, safe work flow.

When our customers thrive, we do too. Our experienced team can provide technical support and design assistance. We are here to help in any way, every day.

Quality materials, innovative, long-lasting design, and operational excellence are built into every product we manufacture. That is how we can offer the industry's longest product warranties.

World-class quality—but do not just take our word for it.

RegO builds products that last. Our durable materials, proven designs, and rigorous testing all add up to products designed for years of safe operation under hazardous conditions. With standards like these, it is no wonder that RegO quality is recognized the world over.

LNG cylinders

The driving force behind LNG vehicles

RegO technology and know-how helped create the LNG vehicle cylinder. Today, we offer the industry's only R110 compliant line of LNG cylinder flow control products. From filler receptacles to shut-off valves, our long-lasting, low maintenance products are engineered to give you mile after mile of fuel efficient driving—without a lot of costly pit stops.

NEW! IN LINE CHECK VALVES
NG300 SERIES

SHUT-OFF VALVE
T9460 SERIES

LNG fueling station

Setting the standard for fast, safe fills

The RegO CryoMac3® is the only LNG fueling nozzle that meets the strict requirements of ISO12617:2016—the LNG road standard for Europe. Combine it with our complete line of durable, 100% tested couplings and hoses to get years of worry-free filling.

Bulk tank storage

Breadth of line meets depth of knowledge

Combine RegO's industry experience, design assistance, and broad product line to build a flow control system that enables maximum efficiency and excellent value for bulk storage applications.
